

## **PRESS RELEASE**

For immediate release  
September 26, 2005

### **The Moroccan Association of Toronto welcomes the positive recent developments in Morocco**

**Toronto** – Morocco has recently known two major events: the release of the Moroccan soldiers, who were the longest held POWs in the world, from their captivity in the south of Algeria, and the royal decision to allow Moroccan women to automatically pass their nationality on to their children.

« We have received the news of the release of our Moroccan soldiers and that of the positive change in the Moroccan nationality law with great satisfaction and immense pride, declared Abdelwahed Boutahor, President of the Moroccan Association of Toronto (AMDT) »

On behalf of Moroccans of the Greater Toronto Area, the executive committee of the AMDT seizes this opportunity to pay tribute to our proud and heroic Moroccan soldiers who were finally freed from the atrocities of their captors and to the Moroccan mothers for their new victory. Both were well deserved and long overdue.
